DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Freund (U.S. 4,805,816).

Freund discloses a low relief clothes display 10 having shoulder notches 52.

With regard to claim 2, the notches restrain clothing straps from falling off the shoulder. Note: The claim does not offer any structure that limits claim 1, but merely recites the function of the notches.

With regard to claim 3, the notches 52 include an undercut U-shaped indentation.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Schilling '375 and Carranza '088 disclose a low relief clothes display having shoulder notches for retaining clothing straps thereon. Uke '043 discloses a hanger for securing a wetsuit thereto.
